

Noxious Weed Days

Saturday, May 28th & Friday, June 3, 2022

8:00 AM– 12:00 PM (*weather permitting)

2300 County Shop Road, Steamboat Springs, CO

Please join the Routt County Noxious Weed Program, Noxious Weed Advisory Board and CSU Master Gardeners for Noxious Weed Days. Educational events open to the public to help residents with plant identification and noxious weed management.

We encourage you to bring:

- Any weed management questions you may have
- Plant specimens or photos to be identified. Please be sure to secure or bag any plant specimens containing seeds.
- Hand held or backpack sprayers to be calibrated. Sprayers must be clean, containing no residual material and be functioning without any damage or leaks.
- Appropriate PPE if you are wishing to receive up to 5 gallons of premixed herbicide. This includes long sleeves, long pants, shoes with socks, hand protection and eye protection.

Visit <https://www.co.routt.co.us/216/Weed-Program> for more information on these events and to check dates and times which are subject to change.

The Routt County Weed Program will be supplying interested residents with up to 5 gallons of premixed herbicide solution for targeting many broadleaf weeds including whitetop. Please review our Noxious Weed Days Rules and Guidelines if you wish to receive herbicide. Herbicide will only be provided to residents providing their own clean, functioning sprayer free of cracks or leaks. We will not fill jugs, cans, gas cans, buckets, etc.

Contact Tiffany Carlson at tcarlson@co.routt.co.us or 970-870-5246 with any questions.

We can't stop the spread of Noxious Weeds without your help!
